

Rex Plouck

Director – Public Sector

Rex is responsible for helping healthcare providers and other stakeholders implement health information networks to improve patient care and reduce operating costs. In addition, he leads an initiative to provide industry leaders a US-based alternative for IT outsourcing.

Prior to Attevo, Rex held several executive level positions for the State of Ohio including Enterprise Health IT Officer, Deputy State CIO, and Board Chairman for the Ohio Health Information Partnership.

As the State's Enterprise Health IT Officer, he worked with public and private sector entities to develop and implement a strategic plan for a state-wide health information exchange supporting the adoption of electronic medical records. As part of the effort, Rex created a public private partnership, the Ohio Health Information Partnership, and helped raise over \$50 million to fund the new entity.

As Deputy State CIO, he was responsible for managing the State's \$800 million annual investment in information technology and running the enterprise project management and architecture teams.

Before joining the State of Ohio, Rex held a number of executive management positions in the financial services and software development industries. Rex was the President and COO of a start-up firm providing ecommerce solutions.

Rex holds a Bachelor of Science degree in Mathematical Sciences from The Ohio State University.
