

## Rick Campbell

### Partner

Rick is responsible for the delivery of Attevo's Microsoft consulting services in all geographies. Rick is a creative and proactive executive director who provides technical and operational leadership. He focuses on the delivery of appropriate technology solutions for our clients.

This approach is underpinned by a proven ability to motivate and efficiently direct teams of business and technical professionals in a commercially aware project delivery environment. Diligent risk assessment of emerging technologies further ensures that their appropriate and timely adoption addresses our clients' defined objectives.

With his diverse experience in many geographies and industry sectors, Rick has honed a logical and often lateral approach to problem analysis and effective solution delivery. For the last 17 years, Rick's efforts have been focused on delivering integrated business solutions with the Microsoft platform as the primary user experience.

Prior to joining Attevo, Rick served for 7 years as CTO and COO at Company Net in the UK, where he was responsible for delivery of enterprise-wide business solutions across Europe, North America and the Far East. Rick was also responsible for a number of key enterprise and beta platform implementations showcased on [www.microsoft.com](http://www.microsoft.com).

After receiving his BSc degree with honors in Geology with Computing from the University of Glasgow (UK), Rick subsequently undertook NERC-funded postgraduate research at Birmingham University (UK). Since 2003, Rick has served on the Heriot-Watt University (UK) steering group and interview panel for post and undergraduate IT courses. Rick is active in several other industry-academia partnerships.
